Gabriel Del Valle

623-282-7825 | gabrieldelvalle000@gmail.com | linkedin.com/in/gabrieldelvalle | itsgabedv.github.io

Technical Skills

Languages: C, C++, C#, Java, Python, JavaScript, HTML/CSS, SQL
Frameworks & Technologies: React, Vite, JSX, Node.js
Developer Tools: Git, GitHub, VS Code, Visual Studio, PostgreSQL, Unity, Blender
Other: Microsoft Office 365, Computer Hardware, English/Spanish

Experience

Data Analyst Intern Aug. 2026 – Present

Southwest Mission Acceleration Center, Phoenix, AZ

- Conduct technology assessments for Army stakeholders by engaging with companies, analyzing technical capabilities and mission applicability, identifying potential solutions to warfighter capability gaps, and translating findings into decision-support reports and recommendations.
- Contribute to the development of an internal CRM and technology-management platform, designing and implementing data-export/reporting functionality and prototyping a supply-chain capability while collaborating with the development team through an Agile workflow.

Research Intern May 2024 – May 2025

Mayo Clinic, Phoenix, AZ

- Developed patient-specific 3D models from depth-camera scans using Python and Blender to enhance Patient Skin Dose (PSD) estimation during fluoroscopic procedures.
- Built Python-based data processing workflows using Pandas and NumPy to analyze radiation exposure and compare calculated PSD against reference measurements.
- Presented research findings at the 2024 HSI Summit and 2025 WAESO Conference.

IT Help Desk Intern Apr. 2024 – Oct. 2024

City of Goodyear, Goodyear, AZ

- Manage and maintain hardware inventory tracking using centralized asset management system
- Supported IT asset deployment across city departments, troubleshooting hardware and software issues for employees and coordinating with the IT team.

Associate Banker Nov. 2018 – May 2023

Wells Fargo, Phoenix, AZ

- Consulted with customers to identify needs and recommend financial solutions while consistently exceeding performance and customer satisfaction targets.
- Consistently exceeded business metrics maintaining top-tier excellent satisfaction and achieving sales targets

Projects

Dashboard Creation for Physicians and MR Technicians Jan. 2025 – May 2025

- Developed an interactive dashboard for Physicians and MR Technicians at Mayo Clinic using Python libraries to streamline data analysis for radiology procedures
- Integrated data visualization tools to enable efficient comparison of radiology procedure metrics, improving decision-making and workflow efficiency

Creating Patient-Specific Models for Fluoroscopy PSD Estimation May 2024 – Dec. 2024

- Conducted research on fluoroscopic procedures for Mayo Clinic, analyzing Patient Skin Dose (PSD) to enhance radiation safety and procedure accuracy
- Developed 3D STL meshes using Kinect scans and refined the models in Blender for accurate PSD analysis
- Utilized Python to run the STL files through a custom PSD calculator, evaluating radiation exposure and identifying missed projections.
- Presented research findings at the 2024 HSI Summit at Northern Arizona University October 2024 and at the WAESO Conference at Arizona State University in February 2025

Education

Arizona State University Tempe, AZ

Bachelor of Science in Computer Science, Dean's List *Jan. 2025 – Dec. 2026*

Estrella Mountain Community College Avondale, AZ

Associate Degrees in Computer Science and Mathematics; AAS in Web Development & Graphic Design *2020 – 2024*
